

If you are attending the **30th ECSS Annual Congress** you are entitled for a special discount on our eSIMs.

Choose the plan that best suits your needs on <u>www.esim.sm</u> and use the coupon below to get a **30% discount**:

ECSS25

or click the link <u>https://esim.sm/go/it?coupon=ECSS25</u> to automatically apply the discount on all available plans.

The discount can be used only once per user and will be applicable from 30 days before the event until July 6, 2025

What is an eSIM?

An eSIM is a **digital SIM** that allows you to stay connected to the internet while travelling, by connecting your smartphone to local networks, **avoiding roaming charges**.

Not all devices are compatible with eSIMs, please make sure your device appears in this list:

www.esim.sm/en/compatible-devices

How do I activate my eSIM?

You can activate your eSIM in 3 simple steps:

- 1. Choose the plan your prefer
- 2. Apply the coupon code while on the Destination page (already added if you clicked on the link)
- 3. Scan the QR code received after the purchase or download the esim.sm app.

HOW TO INSTALL THE ESIM ON IPHONE

Assistance and support at help@esim.sm

iPhone eSIM setup guide

What you need:

• An iPhone compatible with eSIM

Go to Settings > Mobile Service/Cellular and tap "add eSIM"

After scanning the QR code, activate the eSIM by tapping continue

Tap "Use a QR code"

Activation of eSIM completed! Make sure you have 2 network signal bars on top

• The installation email

Scan the QR code received by email or enter details of eSIM manually (if you can't scan)

Tap the new eSIM installed to rename it

iPhone eSIM setup guide

Rename it to eSIM.sm

	Standard allow cellular, but lim	s automatic updates a hits video and FaceTime	nd background tasks on e quality.			
	Low Data Mode automatic upd	e helps reduce cellular ates and background to	data usage by pausing asks.			

Tap "Data Mode" and make sure "Low Data Mode" is selected

iPhone eSIM setup guide

IMPORTANT: If you are not in the destination country, you need to select your primary SIM as "Cellular Data" on step 10 and change it after you arrive at your destination.

Manual iOS setup instructions:

- Go to Settings > Cellular/Mobile Data > Add eSIM or Set up Cellular/Mobile Service > Use QR Code on your device.
- 2. Tap "Enter Details Manually" and enter the SM-DP+ Address and Activation Code by copying them, tap "Next", then tap "Continue" twice and wait for a while. Your eSIM will connect to the network, this may take a few minutes, then tap "Done".
- 3. Choose a label for your new eSIM plan.
- 4. Choose "Primary" for your default line, then tap "Continue".
- 5. Choose the "Primary" you want to use with iMessage and FaceTime for your Apple ID, then tap "Continue".
- 6. Choose your new eSIM plan for cellular/mobile data, then tap "Continue".
